Gasoline Generators

TG SERIES (Gasoline Gen Sets) Air Cooled, 4 Stroke, OHV Max Power is from 1200W to 5000W We adopt advanced technology, high quality electric magnetic and electrical materials to design the generator, the machine with the properties of beautiful appearance, outstanding performance and reliable running etc. The generators are of brushless excitation. It can be used in families, villas, worksites and ships as well as electric power source for lighting, stove, and refrigerators etc.

Max. Power (W) 2700

Rated Power (W) 2500

Voltage (V) 220

Frequency (HZ) 50

Rated Current (A) 11.4

Engine Model TE200

Max. Output (HP) 6.5

Noise Level (at 7m) 68dB

Displacement (cc) 196

Starting System Recoil

Ignition System Non-contact transistorized ignition (T.C.I)

Type Force air-cooled, 4 strokes, OHV

Fuel tank (L) 12

Oil Capacity 0.6

Dimension (L×W×H) mm 545×430×465

N.W (Kg) 48

20 ' FCL (pcs) 260
